## **INDEPENDENT AUDITOR'S REPORT**

**To the Shareholder and Board of Directors of Bermuda Commercial Bank Limited**

### **Report on the audit of the consolidated financial statements**

#### **Opinion**

We have audited the consolidated financial statements of Bermuda Commercial Bank Limited and its subsidiaries (the "Bank"), which comprise the consolidated statement of financial position as at September 30, 2023, the consolidated statements of income and other comprehensive income, changes in equity and cash flows for the year then ended, and notes, comprising significant accounting policies and other explanatory information.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Bank as at September 30, 2023, and its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRS).

#### **Basis for opinion**

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the consolidated financial statements* section of our report. We are independent of the Bank in accordance with International Ethics Standards Board for Accountants International Code of Ethics for Professional Accountants (including International Independence Standards) (IESBA Code) together with the ethical requirements that are relevant to our audit of the consolidated financial statements in Bermuda and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### **Responsibilities of management and those charged with governance for the consolidated financial statements**

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with IFRS, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Bank's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Bank or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Bank's financial reporting process.

#### **Auditor's responsibilities for the audit of the consolidated financial statements**

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Bank's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Bank's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Bank to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Bank to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the Bank's audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

## Bermuda Commercial Bank Limited

### Notes to Consolidated Financial Statements (Expressed in United States Dollars)

September 30, 2023

---

#### 1. Description of business

Bermuda Commercial Bank Limited (“BCB”) is a Bermuda incorporated company, licensed and regulated by the Bermuda Monetary Authority (“the BMA”) to conduct banking under the Banks and Deposit Companies Act 1999 and investment business under the Investment Business Act 2003. BCB, together with its subsidiaries (collectively, the “Bank”), provides banking, custody, investment and lending to retail and corporate clients. BCB’s subsidiaries include Bercom Nominees Limited (licensed and regulated by the BMA under the Corporate Service Provider Business Act 2012), BCB Asset Management Limited and VT Strategies Limited.

Up until March 1, 2022, when certain subsidiaries were sold, the Bank also provided corporate and trustee services (Note 22) which were appropriately licensed and regulated by the BMA. BCB’s registered office is at 34 Bermudiana Road, Hamilton HM 11, Bermuda.

BCB is a wholly owned subsidiary of Base Financial Ltd (formerly known as “Provident Holdings Ltd”), a Bermuda investment holding company whose majority shareholder ultimate parent undertaking is BFG Hamilton Investments, LLC, a company incorporated in the United States of America and owned by Mr. Bradley Palmer.

#### 2. Basis of preparation and significant accounting policies

##### 2.1 Basis of preparation

The consolidated financial statements for the year ended September 30, 2023 have been prepared on a going concern basis. In this regard, management has assessed the Bank’s ability to continue as a going concern and to meet regulatory requirements applicable to capital, liquidity and funding with no exception at least, but not limited to, twelve months from the reporting date.

The consolidated financial statements have been prepared on a historical cost basis, except for certain financial instruments measured at fair value (“FV”). The consolidated financial statements are presented in United States dollars, which is the Bank’s functional and reporting currency. All values are rounded to the nearest dollar, except when otherwise indicated.

The consolidated financial statements for the year ended September 30, 2023, were authorised for issue in accordance with a resolution of the Board of Directors on February 20, 2024.

##### 2.2 Statement of compliance

The consolidated financial statements of the Bank have been prepared in accordance with International Financial Reporting Standards (“IFRS”), as issued by the International Accounting Standards Board (“IASB”). The Bank has consistently applied the significant accounting policies to all periods presented in these consolidated financial statements.

All intercompany balances and transactions are eliminated in full on consolidation. The financial statements of the Bank’s subsidiaries still owned at the financial year-end are presented for the same reporting year as the Bank, using consistent accounting policies. The Bank is also using consistent accounting policies for its discontinued operations (if any).

Subsidiaries are fully consolidated until the date on which control was relinquished by the Bank. Control is forfeited when the Bank no longer has the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities.

**Bermuda Commercial Bank Limited**

Notes to Consolidated Financial Statements  
(Expressed in United States Dollars)

September 30, 2023

---

**2. Basis of preparation and significant accounting policies** (continued)

**2.3 Presentation of consolidated financial statements**

The Bank presents its Consolidated Statement of Financial Position broadly in order of liquidity. An analysis regarding recovery or settlement of assets and liabilities within 12 months after the reporting date ("current"), and more than 12 months after the reporting date ("non-current"), is presented in Note 20.

**2.4 Significant accounting judgments, estimates, and assumptions**

The preparation of consolidated financial statements in conformity with IFRS requires management to make certain significant estimates, judgments, and assumptions that affect the application of the reported amounts in the consolidated financial statements and accompanying notes. Actual results could differ from those estimates.

Estimates, judgments and assumptions are continually evaluated, and are based on historical experience and other factors, including expectations of future events, that are believed to be reasonable under the circumstances. The estimates, judgments, and assumptions that have a risk of causing material adjustments to the consolidated financial statements within the next financial year are discussed below:

*Classification of financial assets*

Classification of financial assets is determined based on the business model within which the assets are held and the assessment of whether the contractual cash flows represent Solely Payment of Principal and Interest ("SPPI").

*Impairment / Expected credit loss ("ECL") Allowance on financial assets*

The impairment or ECL allowance for loans and advances and debt instruments in the investment portfolio that are carried at Amortised Cost ("AC") or Fair Value Through Other Comprehensive Income ("FVOCI") is measured according to the significant increase in credit risk of those assets from their initial recognition. The significance of the increase in credit risk is assessed based on internally developed parameters and may include estimates and judgements. Further, several internal and external forward-looking judgements, estimates and assumptions are used in assessing the ECL allowances. These estimates are driven by a number of factors, changes in which can result in different levels of allowances.

*Fair value of financial instruments*

Where the fair values of financial assets and financial liabilities recorded on the Consolidated Statement of Financial Position cannot be derived from active markets, they are determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are derived from observable market data where possible, but where observable market data is not available, judgment is required to establish fair values. The judgments include considerations of liquidity and model inputs such as volatility and discount rates. The valuation of financial instruments is described in more detail in Note 21.

**Bermuda Commercial Bank Limited**

Notes to Consolidated Financial Statements  
(Expressed in United States Dollars)

September 30, 2023

---

**2. Basis of preparation and significant accounting policies (continued)**

**2.5 Significant Accounting Policies**

**Basis of consolidation**

The consolidated financial statements include the assets, liabilities, and results of operations of the Bank and its subsidiaries as at September 30, 2023. A list of these subsidiaries is presented in Note 17.

**Foreign currency translation**

The consolidated financial statements are presented in United States dollars. The Bank and each of its subsidiaries determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency.

Bermuda dollar balances and transactions are translated into United States dollars at par. Monetary assets and liabilities in other currencies are translated into United States dollars at the rates of exchange prevailing at the reporting date and non-monetary assets and liabilities that are measured in terms of historical cost in a foreign currency are translated into United States dollars at historic rates or the rates of exchange prevailing at the dates of the transactions.

Income and expense items in other currencies are translated into United States dollars at the rates prevailing at the dates of the transactions. Realised and changes in unrealized gains and losses on foreign currency positions are reported under net exchange gains or losses in the Consolidated Statement of Income of the current year.

**Cash and cash equivalents**

Cash and cash equivalents consist of cash and term deposits which are readily convertible to known amounts of cash, are subject to an insignificant risk of changes in value and have original maturities of three months or less from the reporting date. Cash and cash equivalents may also include high quality liquid assets ("HQLA") such as treasury bills and money market funds, which have daily liquidity and which invest in highly liquid instruments, such as term deposits and commercial paper.

**Financial instruments**

***Recognition and initial measurement***

The Bank initially recognises loans and advances, deposits and other financial liabilities on the date on which they are originated. All other financial instruments (including regular purchases and sales of financial assets) are recognised on trade date, which is the date on which the Bank becomes a party to the contractual provisions of the instrument.

***Classification***

On initial recognition, a financial asset is classified as measured at AC, FVOCI or Fair Value Through Profit or Loss ("FVTPL").

A financial asset is measured at AC if it meets both of the following conditions and is not designated as at FVTPL:

- the asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are SPPI.

**Bermuda Commercial Bank Limited**

Notes to Consolidated Financial Statements  
(Expressed in United States Dollars)

September 30, 2023

---

**2. Basis of preparation and significant accounting policies (continued)**

**Financial instruments (continued)**

A debt instrument is measured at FVOCI only if it meets both of the following conditions and is not designated as at FVTPL:

- the asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are SPPI.

On initial recognition of an equity investment that is not held for trading, the Bank may irrevocably elect to present subsequent changes in fair value in the Consolidated Statement of Other Comprehensive Income ("OCI"). This election is made on an investment-by-investment basis.

All other financial assets are classified as measured at FVTPL.

In addition, on initial recognition, the Bank may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

***Business model assessment***

The Bank makes an assessment based on the objective of a business model in which an asset is held at a portfolio level because this best reflects the way the business is managed, and information is provided to management. This includes the (a) business model where the objective is to hold assets in order to collect contractual cash flows, (b) business model where the objective is achieved by both collecting contractual cash flows and selling financial assets, and (c) other business models.

Other business models (where applicable) include financial assets that are neither held to collect contractual cash flows nor held both to collect contractual cash flows and to sell financial assets. These are measured at FVTPL as these are generally held for trading and the performance is evaluated on a fair value basis.

***Assessment of whether contractual cash flows are SPPI***

Financial instruments that meet the business model assessment of (a) and (b) above are assessed to evaluate if the contractual cash flows represent SPPI which would typically be expected from basic lending arrangements. For this purpose, 'principal' is defined as the fair value of the financial asset on initial recognition and may change over the life of the financial asset. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs, as well as profit margin.

***Reclassifications***

Financial assets are not reclassified subsequent to their initial recognition, except in the period after the Bank changes its business model for managing financial assets.

***Financial liabilities***

The Bank classifies its financial liabilities as measured at amortised cost or FVTPL.

**Bermuda Commercial Bank Limited**

Notes to Consolidated Financial Statements  
(Expressed in United States Dollars)

September 30, 2023

---

**2. Basis of preparation and significant accounting policies (continued)**

**Financial instruments (continued)**

***Derivatives***

Derivatives include foreign exchange forward contracts and warrants. The Bank uses derivatives to manage its credit and market risk exposure and also to provide clients with the ability to manage their own risk exposures. The Bank does not use derivatives for trading or for speculative purposes.

The Bank uses foreign exchange forward contracts to manage the Bank's foreign exchange risk on certain investment securities denominated in foreign currencies.

Derivatives are recorded at fair value and carried as assets when the fair value is positive, and as liabilities when the fair value is negative.

The accounting treatment for a fair value gain or loss on a derivative depends on whether the derivative is designated as a hedging instrument. Changes in the fair value of derivatives are included in the Consolidated Statement of Income in gains (losses) on derivative financial instruments for the option contracts, and in net foreign exchange gains or losses for the forward contracts, unless they qualify for hedge accounting. The Bank does not currently apply hedge accounting.

***Derecognition***

A financial asset is derecognised when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred, or in which the Bank neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

On derecognition, except for equity investments measured at FVOCI, the difference between the carrying amount of the financial asset (or the carrying amount allocated to the portion of the asset derecognized) and the sum of (i) the consideration received (including any new asset obtained less any new liability assumed) and (ii) any cumulative gain or loss that had been recognised in OCI, is recognised in the Consolidated Statement of Income. Derecognition gains and losses from equity investments measured at FVOCI are not recognised in the Consolidated Statement of Income. However, transfers may be made from OCI to retained earnings at the discretion of management.

A financial liability is derecognized when its contractual obligations are discharged or cancelled or expire.

***Offsetting financial instruments***

Financial assets and financial liabilities are offset and the net amount is reported in the Consolidated Statement of Financial Position only when there is a legally enforceable right to offset the recognised amounts, and there is an intention to settle on a net basis, or to realise the assets and settle the liability simultaneously. Income and expenses will not be offset in the Consolidated Statement of Income unless required or permitted by an accounting standard or interpretation as specifically disclosed in the accounting policies of the Bank.

***Determination of fair value***

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal or, in its absence, the most advantageous market to which the Bank has access at that date. The fair value of a liability reflects its non-performance risk.

## Bermuda Commercial Bank Limited

### Notes to Consolidated Financial Statements (Expressed in United States Dollars)

September 30, 2023

---

## 2. Basis of preparation and significant accounting policies (continued)

### Financial instruments (continued)

When available, the Bank measures fair value of an instrument using the quoted price in an active market for that instrument. A market is regarded as active if transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis.

If there is no quoted price in an active market, then the Bank uses valuation techniques that maximise the use of relevant observable inputs and minimise the use of unobservable inputs. The chosen valuation technique incorporates all of the factors that market participants would take into account in pricing a transaction.

The best evidence of fair value of a financial instrument at initial recognition is normally the transaction price which is the fair value of the consideration given or received. If the Bank determines that the fair value at initial recognition differs from the transaction price and the fair value is evidenced neither by quoted price in an active market for an identical asset or liability nor based on a valuation technique that uses only data from observable markets, then the financial instrument is measured initially at fair value and it is adjusted to defer the difference between the fair value at initial recognition and the transaction price. Subsequently, the difference is recognised in the Consolidated Statement of Income on an appropriate basis over the life of the instrument but no later than when the valuation is wholly supported by observable market data or the transaction is closed out.

### Impairment

ECL allowances are recognised for financial assets and loan commitments, except for financial assets that are measured at FVTPL and equity investments measured at FVOCI. ECL allowances applicable to financial assets measured at AC are deducted from the gross carrying value of the respective financial asset while the ECL allowances applicable to financial assets measured at FVOCI are recognised in OCI. Movements in ECL allowances are recognised in the Consolidated Statement of Income.

ECL allowances are a probability-weighted estimate of credit losses that are expected to arise over the life of the asset (the lifetime expected credit loss), unless there has been no 'significant increase in credit risk' since origination (12 month expected credit loss). Accordingly, for loans and advances and financial investments, an assessment is performed at the end of each reporting period to evaluate whether a financial instrument's credit risk has increased significantly since its initial recognition.

Financial assets and loan commitments are categorized into the following groups based on the above assessment.

Stage 1 - Includes debt instruments where there has not been any significant increase in credit risk since initial recognition. For instruments under stage 1, an allowance is required for ECLs resulting from default events that are possible within the next 12 months from the reporting date (i.e. 12 Months ECL).

Stage 2 - Includes debt instruments where there has been a significant increase in credit risk since initial recognition on an individual or collective basis. For instruments under stage 2, an allowance is required for ECLs resulting from all possible default events over the expected life of the instrument (i.e. Lifetime ECL).

Stage 3 - Includes debt instruments that are credit-impaired due to objective evidence of impairment. For instruments under Stage 3, an allowance is required to reduce the carrying value of the asset to its recoverable value.

Originated credit impaired: Originated credit impaired assets (if any) are financial assets that are credit impaired on initial recognition. They are recorded at fair value at initial recognition and interest income is subsequently recognised based on a credit-adjusted effective interest rate ("EIR"). ECLs are only recognised or released to the extent that there is a subsequent change in the expected credit losses.

**Bermuda Commercial Bank Limited**

Notes to Consolidated Financial Statements  
(Expressed in United States Dollars)

September 30, 2023

---

**2. Basis of preparation and significant accounting policies (continued)**

**Financial instruments (continued)**

**Impairment (continued)**

ECL allowances for accounts receivable are estimated based on the simplified approach allowed in IFRS 9.

**Significant increase in credit risk**

In order to determine whether an instrument or a portfolio of instruments is subject to an impairment provision using 12 Month ECL or Lifetime ECL, the Bank assesses whether credit risk has increased significantly since initial recognition at each reporting date. Determining whether an increase in credit risk is significant depends on the characteristics of the financial instrument and the borrower. For this purpose, several internal risk criteria have been set by the Bank based on reasonable and supportable information that is relevant and available without undue cost or effort.

These include:

- quantitative and qualitative information;
- analyses of historical and forward-looking data; and
- data from internal and external sources such as external rating agencies.

**Measurement of ECL**

The Bank estimates the ECLs for loans and advances, loan commitments (if any), and financial investments based on three probability-weighted scenarios to measure the expected cash shortfalls, discounted at an approximation to the EIR. A cash shortfall is the difference between the cash flows that are due to an entity in accordance with the contract and the cash flows that the entity expects to receive.

The key inputs into the measurement of ECL are the term structure of the following variables:

- Probability of Default ("PD")
- Loss Given Default ("LGD")
- Exposure at Default ("EAD")

ECL for exposures in Stage 1 is calculated by multiplying the 12-month PD by LGD and EAD. Stage 2 ECL is calculated by multiplying the lifetime PD by LGD and EAD. ECL for exposures in stage 3 instruments is calculated as the difference between the carrying value and the net present value of estimated future cash flows.

The PD is an estimate of the likelihood of default over a given time horizon. A default may only happen at a certain time over the assessed period, if the instrument has not been previously derecognized and is still in the portfolio. 12-month PD rates for instruments with similar credit risk characteristics are assessed based on the default rates published by approved external parties. Further, several judgements, estimates and forward-looking assumptions are applied when adjusting the PD rates for financial instruments originating in Bermuda and for financial instruments with significant increases in credit risk.

The LGD is an estimate of the loss arising in the case where a default occurs at a given time. It is based on the difference between the contractual cash flows due and those that the lender would expect to receive, including from the realisation of any collateral or credit enhancements that are integral to the underlying financial instrument. For financial instruments that do not have a collateral, the LGD is estimated based on the data published by the external rating agencies. This is usually expressed as a percentage of the EAD.

**Bermuda Commercial Bank Limited**

Notes to Consolidated Financial Statements  
(Expressed in United States Dollars)

September 30, 2023

---

**2. Basis of preparation and significant accounting policies (continued)**

**Financial instruments (continued)**

**Impairment (continued)**

EAD represents the expected exposure in the event of a default. This is derived from the current exposure to the counterparty and potential changes to the current amount allowed under the contract and arising from amortisation. The EAD of a financial instrument is its gross carrying amount at the time of default. For lending commitments, the EADs are potential future amounts that may be drawn under the contract, which are estimated based on historical observations and forward-looking forecasts. For financial guarantees (if any), the EAD represents the amount of the guaranteed exposure when the financial guarantee becomes payable.

As described above, and subject to using a maximum of a 12-month PD for Stage 1 financial assets, the ECL is measured by considering the risk of default over the maximum contractual period over which it is exposed to credit risk. The maximum contractual period extends to the date at which the entity has the right to require repayment of the financial asset or terminate a loan commitment or guarantee.

The source and estimation of PD, LGD and EAD, and their application are dependent on the shared risk characteristics common to a selected group of assets. For portfolios in respect of which the entity has limited historical data, external benchmark information is used to supplement the internally available data.

The ECL for accounts receivable is different from the approach described above as it is estimated using the 'simplified approach' described in IFRS 9. A practical expedient known as the 'provision matrix' method, allowed by IFRS 9, is adopted to assess the allowances under the simplified approach. The provision matrix method specifies fixed provision rates (or 'loss rates') depending on the number of days that a receivable is past due.

Accordingly, the multiplication of accounts receivable in each age bucket by the respective expected loss rates provides the ECL allowance for accounts receivable.

***Incorporation of forward-looking information***

Forward-looking information is incorporated into both the assessment of whether the credit risk of an instrument has increased significantly since its initial recognition and the measurement of ECL.

When estimating ECLs, the Bank formulates three economic scenarios: a base case, which is the 'the most likely outcome' scenario, and two less likely scenarios, one upside (i.e. stronger near-term growth) and one downside (i.e. moderate negative growth), and each is assigned with an estimated probability of occurring. Evaluation and application of multiple economic scenarios are key elements of the expected credit loss process as the ECL of a financial instrument shall be measured in a way that reflects an unbiased and probability-weighted amount that is determined by evaluating a range of possible outcomes.

Economic inputs applicable to the geographical jurisdiction of the underlying financial instrument group are used in developing the macroeconomic scenarios applicable to the estimation process. These economic inputs include gross domestic production growth rate, interest rates and unemployment rates of the relevant jurisdiction. Further, since the inputs and models used for calculating ECLs may not capture all characteristics of the market at the date of the financial statements, quantitative and qualitative adjustments or overlays are occasionally made as temporary adjustments when such differences are significantly material.

**Bermuda Commercial Bank Limited**

Notes to Consolidated Financial Statements  
(Expressed in United States Dollars)

September 30, 2023

---

**2. Basis of preparation and significant accounting policies (continued)**

**Financial instruments (continued)**

**Impairment (continued)**

Where possible, the above data is obtained from third-party sources and the reasonability of inputs, weights attributed to economic inputs and multiple scenarios, and other assumptions used in developing forward-looking information are reviewed at least annually.

**Definition of default and cure**

The definition of default of a group of financial instruments may differ according to their nature and exposure to credit risk and may involve both quantitative and qualitative factors. Loans and advances are considered as defaulted and therefore Stage 3 (credit-impaired) for ECL calculations in all cases when the borrower becomes 90 days past due on its contractual payments. Financial investments carried at AC and FVOCI are considered defaulted and therefore Stage 3 (credit-impaired) for ECL calculations in all cases when the interest, and/or interim or final principal payment becomes 30 days past due on the instrument's contractual payments.

As a part of the assessment of whether an individually significant customer is in default, the Bank also considers a variety of factors that may indicate their inability to pay. When such events occur, the Bank carefully considers whether the event should result in treating the customer as defaulted and therefore assessed as Stage 3 for ECL calculations or whether Stage 2 is appropriate. Such factors include, but are not limited to, downgrade in internal rating of the loan, deterioration in loan-to-value, and other qualitative indications that suggest that the borrower of the loan or the issuer of the financial investment is unlikely to honour its credit obligation in full, or in part, due to reasons such as significant financial difficulty of the issuer, breach of covenants, potential bankruptcy, other financial reorganization, and the disappearance of an active market. It is the Bank's policy to consider a financial instrument as 'cured' and therefore re-classified out of Stage 3 when one or more of the above criteria have improved.

**Modification of financial assets**

A financial asset is derecognized when the terms and conditions have been renegotiated to the extent that, substantially, it becomes a new asset, with the difference recognised as a derecognition gain or loss, to the extent that an impairment loss has not already been recorded. The newly recognised financial asset is classified as Stage 1 or 2 for ECL measurement purposes, unless the new asset is deemed to be credit impaired at the date of inception. If the modification does not result in cash flows that are substantially different, the modification does not result in derecognition. Based on the change in cash flows discounted at the original EIR, a modification gain or loss is recorded, to the extent that an impairment loss has not already been recorded.

**Write-offs**

Financial instruments are written off either partially or in their entirety only when the Bank has no reasonable expectation of recovering the instrument in its entirety or a portion thereof. If the amount to be written off is greater than the accumulated ECL allowance, the difference is first treated as an addition to the allowance that is then applied against the gross carrying amount. Any subsequent recoveries are credited to 'Impairment gains (losses) on financial instruments' in the Consolidated Statement of Income.

**Bermuda Commercial Bank Limited**

Notes to Consolidated Financial Statements  
(Expressed in United States Dollars)

September 30, 2023

---

**2. Basis of preparation and significant accounting policies (continued)**

**Impairment of non-financial assets**

The Bank assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Bank estimates the asset's recoverable amount. Where the carrying amount of an asset exceeds its recoverable amount, the asset is considered impaired and is written down to its estimated recoverable amount.

**Property and equipment**

Property and equipment are carried at historical cost less accumulated depreciation and any impairment losses. Historical cost includes expenditure that is directly attributable to the acquisition of the property and equipment. Depreciation is calculated using the straight-line method over the estimated useful lives of the related assets, which are up to forty years for buildings, seven years for equipment, four years for computer hardware, seven years for operating lease equipment, and the term of the lease for leasehold improvements. Depreciation commences once the property and equipment is put into use.

Subsequent costs, such as repairs and maintenance, are charged to the Consolidated Statement of Income during the financial year in which they are incurred.

Property and equipment is derecognised on disposal or when no future economic benefits are expected from its use. Any gain or loss on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is recognised in other operating income in the Consolidated Statement of Income in the year the asset is derecognised.

**Leases**

At inception of a contract, the Bank assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

At inception or on reassessment of a contract that contains a lease component, the Bank allocates the consideration in the contract to each lease component on the basis of their relative stand-alone prices.

*Bank as a Lessee*

The Bank applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Bank recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets. The asset is subject to the Bank's impairment policy on non-financial assets and amortised over the length of the lease while the lease liability is measured at amortised cost.

As a lessee, the Bank recognises lease payments associated with short-term leases (i.e. where the lease term is 12 months or less) and leases of low-value assets as an expense over the lease term.

The right-of-use assets are presented within the note applicable to Property and equipment (Note 7), and the lease liability within the note applicable to Other liabilities (Note 11).

*Bank as a Lessor*

When the Bank acts as a lessor, it determines at lease inception whether each lease is a finance lease or an operating lease. To classify each lease, the Bank makes an overall assessment of whether the lease transfers substantially all of the risks and rewards incidental to ownership of the underlying asset. If this is the case, then the lease is classified as a finance lease; if not then it is an operating lease. However, there were no finance leases in the Bank's consolidated financial statements at either year-end.

**Bermuda Commercial Bank Limited**

Notes to Consolidated Financial Statements  
(Expressed in United States Dollars)

September 30, 2023

---

**2. Basis of preparation and significant accounting policies (continued)**

**Leases (continued)**

Income from operating leases under IFRS 16 are recognised on a straight-line basis over the lease term as part of 'Other operating income' on the Consolidated Statement of Income.

When the Bank is an intermediate lessor, it accounts for its interests in the head lease and the sub-lease separately. It assesses the lease classification of a sub-lease with reference to the right-of-use asset arising from the head-lease, not with reference to the underlying asset. If a head lease is a short-term lease to which the Bank applies the exemption described above, then the Bank classifies the sub-lease as an operating lease. However, there were no sub-leases in the Bank's consolidated financial statements at either year-end.

**Business combinations and goodwill**

Business combinations are accounted for using the acquisition method at the acquisition date which is deemed to be when control is transferred to the Bank. The cost of an acquisition is measured as the aggregate of the consideration transferred, measured at acquisition date fair value, and the amount of any non-controlling interest in the acquiree. For each business combination, the Bank elects whether to measure the non-controlling interest in the acquiree at fair value or at the proportionate share of the acquiree's identifiable net assets. Acquisition-related costs are expensed as incurred and presented in the Consolidated Statement of Income.

When the Bank acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions at the acquisition date. This involves recognising identifiable assets (including previously unrecognised intangible assets), and liabilities (including contingent liabilities but excluding future restructuring costs), of the acquired business at fair value. Any excess of the cost of acquisition over the fair values of the identifiable net assets acquired is recognised as goodwill. If the cost of acquisition is less than the fair values of the identifiable net assets acquired, the discount on acquisition is recognised directly in the Consolidated Statement of Income at the date of acquisition.

Following initial recognition, goodwill is measured at cost less any accumulated impairment losses. Goodwill (if any) is reviewed for impairment at least annually, or more frequently if events or changes in circumstances indicate that the carrying value may be impaired.

For the purpose of impairment testing, goodwill (if any) acquired in a business combination is, from the acquisition date, allocated to each of the Bank's relevant cash generating units ("CGU") that is expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units.

Where goodwill has been allocated to a CGU and part of the operations within that unit is disposed of, the goodwill associated with the disposed operation is included in the carrying amount of the operation when determining the gain or loss on disposal.

Goodwill disposed of in these circumstances is measured based on the relative values of the disposed operation and the portion of the CGU retained.

**Subsidiaries**

Subsidiaries are investees controlled by the Bank. The Bank controls an investee if it is exposed to, or has rights to, variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. The financial statements of the subsidiaries are included in the consolidated financial statements from the date on which control commences until the date when control ceases.

**Bermuda Commercial Bank Limited**

Notes to Consolidated Financial Statements  
(Expressed in United States Dollars)

September 30, 2023

---

**2. Basis of preparation and significant accounting policies** (continued)

**Business combinations and goodwill** (continued)

*Loss of control*

When the Bank loses control over a subsidiary it derecognises the assets and liabilities of the subsidiary and any related non-controlling interest and other components of equity. Any resulting gain or loss is recognised in the Consolidated Statement of Income. Any interest retained in the former subsidiary is measured at fair value when control is lost and is categorised under financial investments.

*Transactions eliminated on consolidation*

Intra-group balances and transactions, and any unrealised income and expenses (except for foreign currency transaction gains or losses) arising from intra-group transactions, are eliminated in preparing the consolidated financial statements.

*Non-controlling interests*

Non-controlling interests (when applicable) are measured at their proportionate share of the acquiree's identifiable net assets at the date of acquisition. Changes in the Bank's interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions.

**Other intangible assets**

The Bank's other intangible assets include the value of computer software or customer relationships acquired in business combinations. An intangible asset is recognised only when its cost can be measured reliably, and it is probable that the expected future economic benefits that are attributable to it will flow to the Bank. Intangible assets are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination equals their fair value at the date of acquisition. Following initial recognition, intangible assets are carried at cost less accumulated amortisation and any impairment losses. Amortisation is calculated using the straight-line method to write down the cost of intangible assets to their residual values over their estimated useful lives as follows:

Computer software	Up to 8 years
-------------------	---------------

Amortisation of computer software commences once it is put into use.

Subsequent expenditure on computer software is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure is expensed as incurred.

**Customer drafts payable**

Customer drafts payable consist of the balance of un-cashed customer drafts at the reporting date. This balance is customer-driven and fluctuates based on when customers purchase drafts and when they are presented for payment. Customer drafts payable are presented under liabilities on the Consolidated Statement of Financial Position upon issue.

## Bermuda Commercial Bank Limited

Notes to Consolidated Financial Statements  
(Expressed in United States Dollars)

September 30, 2023

---

### 2. Basis of preparation and significant accounting policies (continued)

#### **Discontinued operations**

A discontinued operation is a component of the Bank's business, the operations and cash flows of which can be clearly distinguished from the rest of the Bank and which:

- Represent a separate major line of business or geographic area of operations;
- Is part of a single co-ordinated plan to dispose of a separate major line of business or geographic area of operation; or
- Is a subsidiary acquired exclusively with a view to resale.

Classification as a discontinued operation occurs at the earlier of disposal or when the operation meets the criteria to be classified as held-for-sale. When an operation is classified as a discontinued operation, the comparative statement of profit or loss and OCI is re-presented as if the operation had been discontinued from the start of the comparative year.

#### **Recognition of income**

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Bank and the revenue can be reliably measured. The following specific recognition criteria must also be met before revenue is recognised:

#### ***Interest income***

Interest income is recognised in the Consolidated Statement of Income for all interest-bearing instruments measured at AC and FVOCI, on the accrual basis, using the effective interest rate method. The interest income from financial assets that are classified as Stage 3 for ECL purposes, is calculated by applying the effective interest rate to the net carrying value of the asset, which is the gross carrying amount less the applicable provision for ECL.

Interest income applicable to interest-bearing instruments measured at FVTPL is recognised on the accrual basis, using the coupon rate of the instrument.

#### ***Revenue from contracts with customers - Fees and commissions***

Revenue from contracts with customers primarily includes fees and commissions earned from banking and custodial services; and prior to 2023, trustee services, company management and corporate registrar services. Income is recognised when the performance obligations associated to those contracts are satisfied. Accordingly, income is recognised at the time of the transaction unless the performance obligations associated with the contract are satisfied over a period of time, in which case, the income is recognised over that period according to the complete satisfaction of the performance obligations. Consideration for fees and commissions is collected at the time of the transaction unless it is due upon the receipt of the invoice by the customer. Consideration receivable from customers is presented under other assets on the Statement of Financial Position while the consideration received in advance before the Bank provides the service (i.e. a contract liability) is deferred and presented under other liabilities on the Consolidated Statement of Financial Position.

#### ***Dividend income***

Dividend income is recognised when the Bank's right to receive the payment is established.

#### **Expenses**

Expenses are recognised in the Consolidated Statement of Income on the accrual basis. Interest expense is calculated using the effective interest rate method.

---

**Bermuda Commercial Bank Limited**

Notes to Consolidated Financial Statements  
(Expressed in United States Dollars)

September 30, 2023

---

**2. Basis of preparation and significant accounting policies (continued)**

**Dividends on common shares**

Dividends on common shares are recognised as a liability and are deducted from equity in the period in which they are declared.

**Provisions**

Provisions are recognised when the Bank has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. The expense relating to any provision is presented in the Consolidated Statement of Income, net of any reimbursement.

**Fiduciary activities**

The Bank acts as custodian (and trustee until March 1, 2022) that results in the holding or placing of assets on behalf of individuals, corporates, trusts, retirement benefit plans, and other institutions. These assets and income arising thereon are excluded from these consolidated financial statements, as they are not assets or income of the Bank.

**New standards, interpretations, and amendments to published standards relevant to the bank issued but not yet effective**

Standards issued but not yet effective up to the date of issuance of the Bank's consolidated financial statements which may be relevant to the Bank are listed below. The following new and amended standards are not expected to have a significant impact on the consolidated financial statements or intended to be adopted early:

*Classification of Liabilities as Current or Non-Current (Amendments to IAS1)*

The amendments, as issued in 2020, aim to clarify the requirements on determining whether a liability is current or non-current, and apply for annual reporting periods beginning on or after 1 January 2023. However, the IASB has subsequently proposed further amendments to IAS 1 and the deferral of the effective date of the 2020 amendments to no earlier than 1 January 2024. Due to these ongoing developments, the Bank is unable to determine the impact of these amendments on the consolidated financial statements in the period of initial application. The Bank is closely monitoring the developments.

*Other Standards*

The following new and amended standards are not expected to have a significant impact on the Bank's consolidated financial statements:

- Disclosure of Accounting Policies (Amendments to IAS 1 and IFRS Practice Statement 2). Financial years starting 1 Jan 2023
- Definition of Accounting Estimates (Amendments to IAS 8). Financial years starting 1 Jan 2023

**Early adoption**

The Bank did not early adopt any new standards during the year.

**Bermuda Commercial Bank Limited**

Notes to Consolidated Financial Statements  
(Expressed in United States Dollars)

September 30, 2023

---

**3. Cash and cash equivalents**

Cash and cash equivalents were made up as follows:

	<u>2023</u>	<u>2022</u>
Cash and demand deposits	\$ 31,896,405	\$ 62,255,247
Term deposits maturing within three months	113,198,468	106,611,763
HQLA maturing within three months	49,773,619	100,087,565
Total	<u>\$ 194,868,492</u>	<u>\$ 268,954,575</u>

Term deposits amounting to \$10,501,094 were collateralized at September 30, 2023 (2022: \$15,980,184).

The average effective yields earned were as follows:

	<u>2023</u>	<u>2022</u>
Cash and demand deposits	0.37%	0.01%
Term deposits maturing within three months	4.18%	0.93%
HQLA	3.80%	0.26%

**4. Derivative financial instruments**

At their inception, derivatives often involve only a mutual exchange of rights and obligations with little or no transfer of consideration. However, these instruments frequently involve a high degree of leverage and can be very volatile. A relatively small movement in the value of the asset, index or price underlying a derivative contract may have a significant impact on the fair value of the instrument.

Over-the-counter derivatives may expose the Bank to the risks associated with the absence of an exchange market on which to close out an open position.

The Bank's exposure under derivative contracts is closely monitored as part of the overall management of the Bank's market risk (see also Note 20).

**Foreign exchange forward contracts**

Foreign exchange forward contracts are contractual agreements to buy or sell a specified amount of foreign currency at a future date at an exchange rate fixed at inception of the contract. Forward contracts are customized contracts transacted in the over-the-counter market. The Bank uses these contracts to manage its exposure to foreign currency risk.

**Bermuda Commercial Bank Limited**

Notes to Consolidated Financial Statements  
(Expressed in United States Dollars)

September 30, 2023

**4. Derivative financial instruments** (continued)

The table below shows the fair values of derivative financial instruments recorded as assets and liabilities, together with their notional amounts. The notional amount, recorded gross, is the amount of a derivative's underlying reference asset, index, or price and is the basis upon which changes in the value of derivatives are measured. The notional amounts of the derivatives are not recorded on the Consolidated Statement of Financial Position. The notional amounts presented below on net basis indicate the volume of transactions outstanding at the year-end and are not indicative of the market risk or the credit risk.

	<u>2023</u>		
	<u>Assets</u>	<u>Liabilities</u>	<u>Notional amount</u>
Foreign exchange forward contracts	\$ 23,630	\$ 22,948	\$ 418,453
	<u>2022</u>		
	<u>Assets</u>	<u>Liabilities</u>	<u>Notional amount</u>
Foreign exchange forward contracts	\$ 271,322	\$ 290,082	\$ (486,074)

At September 30, 2023, the net cost of the derivatives amounted to \$nil (2022: \$nil).

**5. Financial investments**

Financial investments by major classifications at September 30 were as follows:

	<u>2023</u>	<u>2022</u>
<b>Financial investments measured at FVOCI</b>		
Government debt securities	\$ 51,887,760	\$ 61,391,729
Corporate debt securities (non-banks)	110,094,212	78,954,193
Debt securities issued by banks	33,048,725	80,029,283
Asset-backed securities	<u>106,809</u>	<u>127,385</u>
<b>Total debt securities at FVOCI</b>	<b>195,137,506</b>	220,502,590
Equity securities designated at FVOCI	<u>—</u>	<u>25,364,521</u>
<b>Total financial investments measured at FVOCI</b>	<b>195,137,506</b>	245,867,111
<b>Financial investments mandatorily measured at FVTPL</b>		
Corporate debt securities (non-banks)	—	5,892,176
Debt securities issued by banks	<u>—</u>	<u>2,264,451</u>
<b>Total financial investments measured at FVTPL</b>	<u>—</u>	<u>8,156,627</u>
<b>Total financial investments</b>	<b>\$ 195,137,506</b>	<b>\$ 254,023,738</b>

At September 30, 2023, the amortised cost of financial investments amounted to \$201,016,226 (2022: \$266,344,355).

**Bermuda Commercial Bank Limited**

Notes to Consolidated Financial Statements  
(Expressed in United States Dollars)

September 30, 2023

**5. Financial investments** (continued)

The carrying value of investments subject to the ECL assessment at September 30, 2023 was \$195,137,506 (2022: \$220,502,590) and solely represent debt securities measured at FVOCI.

Reconciliations from the opening to the closing balance of debt instruments subject to ECL, and the corresponding ECL allowance are as follows:

2023

	Financial investments							
	Gross carrying amount				ECL Allowance			
	Non-credit impaired		Credit impaired	Total	Non-credit impaired		Credit impaired	Total
	Stage 1	Stage 2	Stage 3		Stage 1	Stage 2	Stage 3

*Equity securities designated as at FVOCI*

The FVOCI designation was made for certain equity securities because those investments are being held for strategic purposes. Dividend income in 2023 from these securities was \$236,250 (2022: \$600,000). Realized loss for the year from derecognition of equity securities measured at FVOCI was \$555,308 (2022: Profit of \$3,794,706).

**Bermuda Commercial Bank Limited**

Notes to Consolidated Financial Statements  
(Expressed in United States Dollars)

September 30, 2023

**5. Financial investments (continued)**

*Interest income from financial investments*

Interest income calculated using the effective interest method, on financial investments measured at FVOCI was \$9,850,727 (2022: \$5,639,107). Interest income on financial investments measured at FVTPL, presented under other interest income on the Consolidated Statement of Income was \$386,927 (2022: \$1,170,931). No investments were held nor measured at AC in 2023 (2022: \$nil).

**6. Loans and advances to customers**

Loans and advances to customers at September 30 were as follows:

	<b>2023</b>	<b>2022</b>
Commercial loans	\$ 17,477,460	\$ 25,465,099
Commercial overdrafts	3,668,566	4,904,739
Commercial mortgage loans	7,000,000	7,000,000

**Bermuda Commercial Bank Limited**

Notes to Consolidated Financial Statements  
(Expressed in United States Dollars)

September 30, 2023

**6. Loans and advances to customers** (continued)

*Collateral held by the Bank*

The gross carrying amount of loans represents the maximum exposure of credit risk at the end of the reporting period without taking account of any collateral held by the Bank. Collateral held by the Bank include mortgaged properties, pledges taken over cash and financial investments.

The Bank did not hold any credit impaired assets as of September 30, 2023. Therefore, the aggregate discounted value of collateral held by the Bank for credit impaired assets reported at September 30, 2023 was \$nil (2022: \$ nil).

*Assets modified during the year*

No loans and advances were modified during the year (2022: \$nil).

*Average effective yields*

The average effective yields earned were as follows:

	<u>2023</u>	<u>2022</u>
Commercial loans	6.10%	6.56%
Commercial overdrafts	6.34%	6.07%
Commercial mortgage loans	5.50%	5.50%
Consumer mortgage loans	5.60%	5.05%
Government backed mortgages	5.00%	-
Other	6.28%	5.99%

The average effective yields represent both fixed and variable interest rates.

Outstanding credit card balances are charged interest at 16% per annum.

**7. Property and equipment**

**Bermuda Commercial Bank Limited**

Notes to Consolidated Financial Statements  
(Expressed in United States Dollars)

September 30, 2023

**12. Equity**

All shares are common shares with a par value of \$2.40 each:

	<b>Authorised shares</b>	<b>Par value</b>	<b>Issued &amp; fully paid shares</b>	<b>Par value</b>	<b>Share premium</b>
Balance at September 30, 2023 and 2022	<u>10,000,000</u>	<u>24,000,000</u>	<u>7,003,318</u>	<u>16,807,963</u>	<u>22,131,188</u>

**Regulatory capital**

The Bermuda Monetary Authority (“BMA”) adopts the Basel III Accord which requires detailed disclosures on regulatory capital and risk management. The BMA assesses the risk of each banking institution and determines a Pillar 2 individual capital guidance for each bank. The Bank has complied with all minimum capital requirements prescribed by the BMA and at September 30, 2023, the Bank’s Tier 1 and total regulatory capital ratios 31.83% (2022: 27.01%) and 31.83% (2022: 27.01%) respectively, and exceeded the required minimum.

**Capital management**

The Bank maintains its capital base and capital ratios above the regulatory minimum capital requirements. The Bank’s capital ratio are continuously reviewed in light of changes in economic conditions and the risk characteristics of the Bank’s activities. In order to maintain or adjust its capital structure, the Bank may adjust the amount of dividend payments to shareholders, return capital to shareholders or issue new capital securities.

**13. Fees and commissions**

Fees and commissions are made up as follows:

	<b><u>2023</u></b>	<b><u>2022</u></b>
Banking services	\$ 1,086,274	\$ 1,684,958
Custody services	<u>512,344</u>	<u>510,097</u>
Total	<u>\$ 1,598,618</u>	<u>\$ 2,195,055</u>

**14. Gains (losses) from financial investments**

Net (losses) gains from financial investments are made up as follows:

	<b><u>2023</u></b>	<b><u>2022</u></b>
From financial investments measured at FVTPL	\$ 580,390	\$ (2,378,012)
On derecognition of financial investments measured at FVOCI	<u>(1,005,486)</u>	<u>35,483</u>
Total	<u>\$ (425,096)</u>	<u>\$ (2,342,529)</u>

**15. Other operating income**

	<b><u>2023</u></b>	<b><u>2022</u></b>
Lease income from operating leases	<u>\$ 525,134</u>	<u>\$ 502,587</u>

Lease income from operating leases includes the rent earned on building premises rented out by the Bank.

**Bermuda Commercial Bank Limited**

Notes to Consolidated Financial Statements  
(Expressed in United States Dollars)

September 30, 2023

**16. General and administrative expenses**

General and administrative expenses are made up as follows:

	<u>2023</u>	<u>2022</u>
Advertising and marketing	\$ 119,762	\$ 13,632
Banking services and licenses	623,990	1,014,484
Directors fees	382,750	356,444
Information technology and systems	1,662,915	1,764,444
Investment advisory fees	414,049	816,617

Sub-custodian charges	267,187	252,848
Other administrative	<u>982,346</u>	<u>583,524</u>
Total	<u>\$ 6,620,153</u>	<u>\$ 6,997,366</u>

**17. Related party disclosures**

**Related party transactions including shareholder controllers and the related parties of shareholder controllers**

The Bank provides banking services and enters into related party transactions including shareholder controllers and the related parties of shareholder controllers under the same terms as an unrelated party would receive. Outstanding balances and/or related party transactions including shareholder controllers and the related parties of shareholder controllers were as follows:

*Consultancy services provided by Base Financial Ltd.*

During the year, the Bank incurred \$648,596 (2022: \$nil) for consultancy services provided by Base Financial Ltd. to the Bank and it has been recorded as part of salaries and employee benefits on the Consolidated Statement of Income.

*Loans and advances to customers*

At September 30, 2023, total loans and advances receivable from related parties amounted to \$8,502,350 (2022: \$6,000,000), which was fully secured by publicly listed securities owned by the borrower. The undrawn portion of credit facilities granted to these related parties at September 30, 2023 was \$nil (2022: \$nil).

For the year ended September 30, 2023, the Bank earned net interest income and fees of \$432,563 (2022: \$280,566) for banking and other services provided to such related parties.

*Deposit liabilities*

At September 30, 2023, deposit balances held by related parties with the Bank amounted to \$814,905 (2022: \$1,600,540).

**Transactions with Board of Directors**

Total Directors' fees for the year ended September 30, 2023, amounted to \$382,750 (2022: \$356,444). The Bank provides banking services to Board of Directors under the same terms as an unrelated party would receive. At September 30, 2023, Board of Directors and parties associated with Board of Directors had deposit balances with the Bank of \$183,392 (2022: \$112,743). At September 30, 2023, total loans and advances receivable from Board Directors and parties associated with Board of Directors (not disclosed above) amounted to \$824,167 (2022: \$nil), and the undrawn portion of credit facilities committed, amounted to \$nil (2022: \$nil).

Net interest income and fees earned from Board of Directors for the year was \$15,385 (2022: expense of \$2,993).

## Bermuda Commercial Bank Limited

Notes to Consolidated Financial Statements  
(Expressed in United States Dollars)

September 30, 2023

### 17. Related party disclosures (continued)

#### Compensation of key management personnel of the Bank

The Bank classifies the Board of Directors of the Bank and executive committee as key management personnel. For the year ended September 30, 2023, the total compensation paid to key management personnel amounted to \$2,301,136 (2022: \$3,236,325), excluding the Directors' fees.

#### Principal subsidiary undertakings at September 30, 2023

Name	% ownership	Location
BCB Asset Management Limited	100.00	Bermuda
Bercom Nominees Limited	100.00	Bermuda
VT Strategies Holdings Limited	100.00	Bermuda

BCB as the sole shareholder of these companies provides financial and administrative support to its subsidiaries for at least, but not limited to, 12 months from the date these consolidated financial statements are issued. Further, the details of the subsidiaries disposed of in 2022 can be found in Note 22.

### 18. Salaries and employee benefits

The Bank meets the minimum requirements of the Bermuda National Pension Scheme (Occupational Pensions) Act 1998, and related amendments and regulations. Under this legislation, the Bank contributes to its employees' pension requirements using a defined contribution plan at the rates below, following the completion of 720 hours of work for new staff:

- If service exceeded 15 years before May 2022: 5% of gross salary for the first 15 years and 10% thereafter
- All others: 5% of gross salary

As permitted under the legislation, staff members are required to contribute a minimum of 5% annually based on the employees' pensionable earnings. Staff members who completed 15 years of service prior to May 2022 are not required to make contributions.

The scheme is administered by an independent party and all such funds are segregated from the assets and liabilities of the Bank. Pension expense incurred during 2023 amounted to \$378,640 (2022: \$477,776) and is included within salaries and employee benefits in the Consolidated Statement of Income.

### 19. Commitments and contingent liabilities

#### Commitments

At September 30, 2023, the Bank was committed to \$3,757,621 (2022: \$3,469,144) in undrawn credit facilities. This amount relates to the undrawn portion of approved commercial loans, unused portion of approved overdraft facilities and credit card limits.

Capital commitments in relation to the core-banking upgrade that was in progress as of September 30, 2023 was \$2,093,894 (2022: not applicable). The cost incurred to date is disclosed under *computer software WIP* in Note 8.

#### Contingent liabilities

In the ordinary course of business, the Bank and its subsidiaries can, from time to time, be defendant in, or party to, pending and contingent legal actions / proceedings. The Bank is also subject to periodic regulatory reviews or actions of the Banking Regulator. As a part of these actions, an examination of the Bank's Anti-Money Laundering / Anti-Terrorist Financing policies and procedures is in progress at the reporting date. In relation to these matters, the Bank is required to recognise a provision for a liability when it is probable that an outflow of economic benefits would be required to settle an obligation which has arisen as a result of past events, and for which a reliable estimate can be made of the amount of the obligation. While the outcome of such events is inherently uncertain and cannot be reliably measured, based on the information currently available to management, no provision is necessary in respect of legal proceedings or regulatory actions as at September 30, 2023 (2022: None).

## Bermuda Commercial Bank Limited

(Expressed in United States Dollars)

September 30, 2023

---

### 20. Risk management

The Bank is exposed to a wide range of financial and non-financial risks and maintains a comprehensive approach to effectively manage these risks through a defined enterprise risk management framework (“ERMF”). This framework outlines how these risks are categorized and managed to ensure strategic goals are achieved whilst protecting the Bank’s customers’ funds and providing responsible products and services that support the markets in which it operates.

The Bank’s ERMF is designed on core principles of maintaining a sound risk culture, delivering effective governance, ensuring all risks are clearly understood and appropriately prioritized with a forward-looking approach and the provision of robust monitoring and reporting.

#### Risk culture

The fostering of a sound risk culture is a key responsibility of the Bank’s Executive Management. This is achieved by establishing and exercising accountability, promoting risk awareness and encouraging a proactive approach to the identification and mitigation of risks. These responsibilities are laid out in the governance framework and policies and supported by the Bank’s Code of Conduct. A wide range of training is provided on key risk topics to ensure appropriate technical risk skills are developed and maintained at all levels of the organisation whilst also raising awareness of critical risk issues. The Bank also ensures a safe environment for any staff member to confidentially escalate any concerns through provision of a whistleblowing framework. The Bank’s risk culture is reinforced through its employee performance management framework and approach to remuneration which incorporates behavioural values.

#### Governance

Robust and effective risk governance ensures clear accountability for the management of risk is embedded at every level within the Bank. The Board of Directors (“the Board”) is ultimately responsible for oversight of the enterprise-wide risk management of the Bank and its alignment with the organisation’s objectives and strategies. The Board’s responsibilities include understanding the Bank’s risk exposures, defining its risk appetite, and establishing risk measurement parameters that reflect its risk appetite.

The Board utilizes an underlying committee structure that oversees Executive Management’s implementation of an effective risk management function.

The Bank’s corporate governance practices are consistent with the BMA’s Corporate Governance Policy (December 2012) that sets out the 13 principles and related guidance applicable to deposit taking institutions licensed under the Banks and Deposits Companies Act 1999 of Bermuda.

The Board Audit and Risk Committee (“BARC”) acts as the primary committee under the Board for oversight of risk. It maintains broad responsibility over matters relating to the Bank’s risk exposure, including definition, measurement, assessment, policy setting, and risk mitigation strategies. It establishes the ‘tone from the top’, and sets the expectations and requirements for risk management by Executive Management and the underlying management committees. The Governance Committee’s (“GC”) remit is to oversee all Human Resources matters, policies and procedures and any other matters concerning Employees and management excluding remuneration and compensation decisions which are primarily the responsibility of the Compensation Committee. Below these Board level committees are a series of management level committees that further divide responsibility and oversight within the ERMF including the Executive Committee (“EXCO”), the Asset and Liability Management Committee (“ALCO”) and the Management Risk Committee (“MRC”). Through this governance structure, the Bank’s Executive Management are responsible for the practical execution of the ERMF and ongoing oversight as required by the Board.

### 20. Risk management (continued)

#### Governance (continued)

BCB has adopted the three lines of defence model which addresses how specific duties related to risk and control are segregated and coordinated. All employees are responsible for identifying and managing risk within the scope of their role as part of this framework. The first line of defence are the risk owners that operate within the business units of the bank. This includes client-facing staff as well as non-client facing support functions (e.g. Operations, Technology and Finance). Employees in the first line of defence are accountable for the risk-taking activities and the results, ramifications and opportunities of those activities; establishing appropriate operating procedures and internal control systems; performing regular assessments or testing of controls; monitoring risk exposures against established appetite; and reporting exceptions and incidents in a timely manner. The Second Line of Defence provides risk oversight through the Risk and Compliance functions that provide guidance to, and oversight of, the first line through the setting of risk policies, limits and processes that ensure adherence to required standards and parameters. Critically this requires identification, measurement, monitoring and reporting of the Group's aggregated risk exposures through the risk governance framework. In addition to the above, there are other key operational functions that may have a mixture of first and second line of defence duties. These are Legal, Human Resources, segments of Finance and Information Technology. The third line of defence is the Internal Audit (IA) function which provides independent and objective assurance over the adequacy of design and operational effectiveness of the first and second line functions.

#### Significant risk categories

Risk is inherent in all of the Bank's business activities whether these are actively taken to maximise shareholder value (financial risks) or those that arise as a consequence of its activities (non-financial risks). The primary financial risks that the Bank faces are credit risk, treasury risk, and market risk, and the primary non-financial risks are operational resilience risk, compliance risk and reputational risk

#### Credit risk

Credit risk is the risk that the Bank will incur a loss because its customers or counterparties fail to discharge their contractual obligations. The Bank manages and controls credit risk by setting limits on the amount of risk it is willing to accept for individual counterparties and for geographical and industry concentrations, and by monitoring exposures in relation to such limits.

Credit Risk for financial assets measured at AC and debt instruments measured at FVOCI are also reviewed in accordance with the ECL measurement principles discussed under significant accounting policies in Note 2. These reviews include, but are not limited to staging of financial assets. Staging of financial assets is based on the significance of the increase in credit risk compared to the credit risk at the time of initial recognition. Provision matrices for less complex assets are based on the actual performance of the underlying group of assets in the past.

The Bank regularly reviews the methodologies and assumptions applied in its ECL calculations to ensure they reflect prevailing and expected market conditions. ECL allowances are based on the economic information available at September 30, 2023. Please refer to Note 5, 6 and 9 for more details on the ECL allowances recorded during the year on financial assets measured at AC and FVOCI.

All counterparty banks and money market funds must be approved by the Bank's ALCO. The maximum amount that may be lent to any single bank via the deposit market or invested in a money market fund is governed by a number of controlling variables including the external credit ratings for that bank or money market fund. Counterparty lending limits and limits for money market fund investments are reviewed semi-annually and are adjusted if the capital ratio of a counterparty bank changes, or if the credit rating of a counterparty bank or money market fund goes below the rating levels identified above.

**Bermuda Commercial Bank Limited**

Notes to Consolidated Financial Statements  
(Expressed in United States Dollars)

September 30, 2023

**20. Risk management (continued)**

***Treasury risk***

Treasury risk is broken down into (a) liquidity and funding risk which is defined as the risk that the Bank will be unable to meet its contractual or contingent obligations or that it does not have the appropriate amount, tenor and composition of funding and liquidity to support its assets, and; (b) capital risk which is defined as the risk of insufficient capital to support its normal business activities and to meet its regulatory capital requirements.

To limit this risk, management has adopted policies that prioritize liquidity among the parameters for asset selection. Additionally, management monitors the term structure of the Bank's current funding, its future cash flows, and the market liquidity of its balance sheet assets on a daily basis. Management adheres to conservative parameters using a defined capital risk management framework to ensure regulatory capital adequacy is maintained at all times.

The Bank maintains significant balances of short maturity interbank deposits, along with a diversified portfolio of mainly highly liquid and marketable assets that can be liquidated in the event of an unforeseen drain of cash flow. The Bank's liquidity position is assessed daily and is strategically managed over the long run to be capable of handling a variety of stress scenarios, including those related to systemic market conditions and those related specifically to the Bank.

***Maturity profile***

The below tables summarize the maturity profile of the Bank's assets and liabilities as at September 30, 2023 and 2022. Repayments which are subject to notice are treated as if notice were to be given immediately. However, the Bank expects that many customers will not request repayment on the earliest date the Bank could be required to pay, and the table does not reflect the expected cash flows indicated by the Bank's deposit retention history.

**Market risk**

Market risk is the risk that the fair value or future cash flows of financial instruments will fluctuate due to changes in market variables such as interest rates, foreign exchange rates, and equity prices. The market risk for the Bank's financial instruments is managed and monitored using sensitivity analyses. This analysis is performed using market information and in practice, the actual trading results may differ from this sensitivity analysis and the difference could be material.

**Interest rate risk**

Interest rate risk arises from the possibility that changes in interest rates will affect future cash flows or the fair values of financial instruments.

Interest rate movements cause changes in interest income and interest expense, and although these changes move in the same direction, their relative magnitude will favorably or unfavorably impact net interest income and the economic value of equity. The extent of that impact depends on several factors, including matching of asset and liability maturities and the interest rate term structure. Assets and liabilities are managed to optimize the impact of interest rate movements in view of anticipated rate changes.

The following table demonstrates the Bank's sensitivity to a change in interest rates, with all other variables held constant. The sensitivity of the economic value of the Bank's shareholders equity is the effect of the assumed changes in interest rates on net interest income and market value of the financial assets.

**Bermuda Commercial Bank Limited**

Notes to Consolidated Financial Statements  
(Expressed in United States Dollars)

September 30, 2023

---

**20. Risk management** (continued)

	<u>2023</u>	<u>2022</u>
200-basis-point increase in interest rates Impact on Economic Value of Equity	\$ (5,324,630)	\$ (3,860,205)
200-basis-point decrease in interest rates Impact on Economic Value of Equity	\$ 5,324,630	\$ 3,860,205

*Foreign Currency Risk*

Foreign currency risk is the risk that the value of assets and liabilities will fluctuate due to changes in foreign exchange rates. The Board of Directors has set limits on positions by currency. In accordance with the Bank's policy, positions are monitored on a daily basis and hedging strategies are used to ensure positions are maintained within established limits. A 10 per cent increase in the FX rates to which the Bank had significant exposure at September 30, 2023 would have decreased net income and equity by \$6,858 (2022: \$36,338). An equivalent decrease in these same FX rates would have resulted in an equivalent but opposite impact.

**Operational risk**

Operational risk is the risk of loss resulting from inadequate or failed internal processes, people and systems or from external events. The Bank is exposed to operational risk as a direct or indirect consequence of its normal business activities, as arising in the day to day execution of business processes, the functioning of its technologies and in the various activities performed by its staff, contractors and vendors. Operational risk is relevant to every aspect of the Bank and covers a wide range of areas including, amongst others, financial crime compliance, regulatory compliance, fraud, cyber security, technology and conduct risks. The Bank manages operational risk via a comprehensive and standalone Operational Risk Management Framework ("ORMF") which outlines the required policies, processes and responsibilities. A key aspect of the ORMF is the Risk and Control Self-Assessment ("RCSA") process which identifies and evaluates the operational risks across all of the Bank's businesses and determines if these are effectively controlled within acceptable parameters. Where deficiencies are detected formal action is taken to address these. The results of the RCSA drive the first and second line of defence control monitoring and testing regime, which is monitored through the MRC. The Bank also operates a defined process to govern how operational risk incidents are managed to ensure sustainable control improvements are delivered, and how operational losses are calculated, categorized and reported.

**Geopolitical and macroeconomic risks**

The continuing Russia-Ukraine conflict has increased geopolitical instability and resulted in the use of significant sanctions and trade restrictions against Russia, Russian government officials and individuals with close ties to the Russian government as well as Russian financial institutions and companies. The Bank manages the expanded sanctions requirements through its automated sanctions screening monitoring system which is set up to identify possible wires in connection to Russia and other relevant sanctions regimes. The Bank engaged an external law firm with a dedicated sanctions team which assisted with the interpretation of the rapidly changing sanctions against Russia. All transactions with Russia were discontinued in 2022. The Bank also assessed its possible sanctions exposure from business relationships and made amendments to its customer portfolio to reduce possible exposure to sanctions.

## Bermuda Commercial Bank Limited

Notes to Consolidated Financial Statements  
(Expressed in United States Dollars)

September 30, 2023

---

### 20. Risk management (continued)

#### **Geopolitical and macroeconomic risks** (continued)

Sustained global macroeconomic uncertainty has resulted in a significant and almost universal increase in inflation and a rapid rise in interest rates as central banks tightened monetary policy in response. Although the direct financial impact to the Bank in 2023 has been limited to increased volatility in the fair value of its investments (Notes 5 and 21) the Bank is not immune to the sustained and evolving risks of this uncertain environment and continues to monitor and seek to manage the potential implications on its business and customers. Specifically, through its forward-looking risk governance structure, the impact that rising rates have on the financial instruments held by the Bank are closely considered through ALCO and the impact of a rising cost of living on current and future borrowers is assessed through MRC which drives enhancements to the Bank's credit and lending policies and control framework.

### 21. Financial instruments

The Bank uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Level 1: inputs that are quoted market prices (unadjusted) in active markets for identical instruments;

Level 2: inputs other than quoted prices included within Level 1 that are observable either directly (i.e. as prices) or indirectly (i.e. derived from prices). This category includes instruments valued using quoted market prices in active markets for similar instruments; quoted prices for identical or similar instruments in markets that are considered less than active; or other valuation techniques in which all significant inputs are directly or indirectly observable from market data;

Level 3: inputs that are unobservable. This category includes all instruments for which the valuation technique includes inputs not based on observable data and the unobservable inputs have a significant effect on the instrument's valuation.

Valuation techniques include net present value and discounted cash flow models and other valuation models. Changes in unobservable inputs may result in a significantly higher or lower fair value measurement.

The objective of valuation techniques is to arrive at a fair value measurement that reflects the price that would be received to sell the asset or paid to transfer the liability in an orderly transaction between market participants at the measurement date.

The Bank uses widely recognised valuation models for determining the fair value of common and more simple financial instruments, such as currency swaps that use only observable market data and require little management judgment and estimation. Observable prices or model inputs are usually available in the market for listed debt and equity securities, exchange-traded derivatives and simple over-the-counter derivatives. The availability of observable market prices and model inputs reduces the need for management judgment and estimation and also reduces the uncertainty associated with determining fair values. The availability of observable market prices and inputs varies depending on the products and markets and is prone to changes based on specific events and general conditions in the financial markets.

#### **Derivative financial instruments**

The fair value of the Bank's derivative financial instruments, which are estimated using a valuation technique with market observable inputs include foreign exchange forward contracts and warrants. The most frequently applied valuation technique for forward contracts includes the forward pricing model which incorporates various inputs including the forward rates while the valuation techniques for warrants follows trinomial option pricing model.

**Bermuda Commercial Bank Limited**

Notes to Consolidated Financial Statements  
(Expressed in United States Dollars)

September 30, 2023

**21. Financial instruments** (continued)

**Financial instruments recorded at fair value**

***Financial investments***

Certain financial investments, where applicable, are valued using valuation techniques and include unquoted equity and debt securities. These assets are valued using models that use both observable and unobservable data. The unobservable inputs to the models include the review of the historical financial and operating results of the investee and its underlying investments, assumptions regarding the expected future financial performance and the risk profile of the investee and its underlying investments, and economic assumptions regarding the industry and geographical jurisdiction in which the investee and its underlying investments operate.

The following table shows an analysis of financial instruments recorded at fair value by level of the fair value hierarchy:

**21. Financial instruments** (continued)

Movement in Level 3 financial instruments measured at fair value:

	<b>Asset backed securities</b>	<b>Total</b>
<b>At September 30, 2021</b>	\$ 148,125	\$ 148,125
Gains (losses) recorded in:		
- Consolidated Statement of Income	(129,273)	(129,273)
Sales / Maturities	<u>(11,499)</u>	<u>(11,499)</u>
<b>At September 30, 2022</b>	\$ 7,353	\$ 7,353
Sales / Maturities	<u>(7,353)</u>	<u>(7,353)</u>
<b>At September 30, 2023</b>	<u>\$ —</u>	<u>\$ —</u>

**22. Discontinued operations (Applicable to financial year ended September 30, 2022 only)**

In November 2021, a share Sales and Purchase Agreement was signed between BCB and an external third party ("the purchaser") to transfer 100% shareholding of four wholly owned subsidiaries of BCB namely, BCB Paragon Trust Limited, BCB Charter Corporate Services Limited, BCB Management Limited and BCB Management Services Limited (collectively referred to as "target companies" or "disposal group") for a negative consideration of \$2.5M. The negative consideration was not paid to the purchaser but maintained by way of cash balance in the target companies. The additional cash infused to maintain the \$2.5M cash requirement was accounted for as an equity contribution to the target companies.

The transaction was completed on March 1, 2022 (the "Transaction date" or the "disposal date") by transferring the title of all shares of the target companies to the purchaser. In line with IFRS10 – Consolidated Financial Statements, the target companies were consolidated with BCB until the transaction date, and were deconsolidated thereafter. The disposal loss recognized in the consolidated financial statements under loss from discontinued operations was \$2,568,244.

**22. Discontinued operations** (continued)**A. Results of Discontinued operations**

Trust and Corporate services business units were classified as discontinued operations during the prior financial year. The breakdown of the loss from these discontinued operations presented on the Consolidated Statement of Income is as follows. The presentation of comparatives including to cash flows has been changed as follows to show the discontinued operations separately from the continuing operations:

	<b>5 Months Ended 1 March 2022</b>
Fees and commissions	\$ 430,763
Impairment (losses)/gains on financial instruments	(9,865)
<b>Total income</b>	<b>420,898</b>
<b>Less: expenses</b>	
Salaries and employee benefits	748,908
General and administrative expenses	341,868
<b>Total expenses</b>	<b>1,090,776</b>
<b>Net loss from operating activities before taxation</b>	<b>(669,878)</b>
Less: Income tax expense	-
<b>Net Loss from operating activities before taxation</b>	<b>(669,878)</b>
Less: Disposal loss on sale of discontinued operations	(2,568,244)
<b>Loss from discontinued operations</b>	<b>\$ (3,238,122)</b>

The loss from discontinued operations is fully attributable to the shareholders of BCB.
